BAKON designs and produces standardized and customized depositing, spraying and cutting machines as well as production lines for efficient, high-volume processing of pastry products. BAKON stands for advanced technology and reliability.

After a warm up time of 15 minutes, it takes less than 10 minutes to shape and bake the finest tart shells. With a choice of 10 baking moulds it is possible to produce almost any shape or size. An additional feature of the Tartlet Satellite allows you to create sweet and savoury tart shells with an assortment of fillings to finish in the oven or freeze for later use.

The TARTLET SATELLITE is a table top stand-alone machine.
